

Mapleton Lifestyle

A Message from Mapleton Mayor, Fred Standa

Welcome to Mapleton! You have probably been reading about the wonderful lifestyle we enjoy as residents of Mapleton. Although the virtual tour is nice, I would like to invite you to tour Mapleton in person.

You will find a safe, quiet community where the people are friendly and on a first name basis. Because of our unique location, nestled in the midst of the beautiful Loess Hills you will find Mapleton surrounded by scenic beauty.

Our Residents enjoy an excellent police force, volunteer fire department, educational system and all of the amenities often found only in larger cities. If you like to golf, Willow Vale Golf Course offers quite a challenge, and our new swimming pool, a successful community project will provide recreation for years to come.

If you are considering a move, talk to residents who have already found Mapleton conducive to starting a family or a business. They will tell you they love this city and the lifestyle it offers their family.

I hope the information and photos you find on our website whet your appetite and that you consider Mapleton. Our City truly has something for everyone.

Sincerely,

Mapleton Mayor, Fred Standa

Housing

Advantages in the cost of housing are a powerful attractant! Mapleton welcomes new residents who will benefit immediately from our low housing cost.

Our new subdivision, Water Tower Place, offers residents building lots from \$5,000-\$10,000. Local builders declare that a typical very comfortable 3 bedroom home could be constructed for around \$125,000. Of course, building costs will depend upon personal preferences. This example is meant to demonstrate the quality of living and comparative low cost.

Many homes suitable for families of 4-6 can be purchased for \$50,000-\$75,000. As far as style and design, Mapleton has an interesting combination of various architecture ranging from older Victorian homes to modern ranches and split levels.

Check out the other benefits of the Maple Valley and how living here can improve your lifestyle.
